

Hello Sailor,

Please find attached our Christmas newsletter, this time in .pdf format, as many with Apple-macs will have the pictures do strange things and the text formatting misbehave in the 'word' format that it is created in. If you would like me to continue attaching a copy in word format as well please let me know.

As well as a review of this years mini rally, it outlines our plans for the 2017 get-together which will be based in Guernsey. Reservations are now open!

What an intrepid bunch us Aquastar owners are - the adventures of one 33 and also those of one 48 appear towards the end of the newsletter and make impressive reading.

Do please keep these interesting experiences coming in, as well as any technical tips or general queries. These are after all what helps to make the newsletter an interesting read.

With the very best wishes for a Happy New Year,
Ingvar Svenson (commodore).
