

Hello Sailor,

Please find attached our Easter 2017 newsletter.

It outlines our plans for the 2017 get-together which will be based in Guernsey, together with a couple of extended options of some sailing in company for those that wish.

For those that do wish, please note that I will require your decisions, at least for the two days of July 28th and 29th, together with your deposits, two months beforehand, i.e. by May 28th, together with your berthing requirements, as we did last year.

Would you also please give me to the best of your current knowledge your details and intentions with regard to the rest of the options, as per the table in the newsletter.

England expects that this year we will be able to entice some Channel Islands residents to join us - no excuses as we are coming your way again!

We have another intrepid and brave Aquastar 48 owner, who recently joined, who writes about his trials and tribulations in taking his new boat from The Hamble right up to Largs in Scotland - impressive reading indeed.

Do please keep these interesting experiences coming in, as well as any technical tips or general queries. These are after all what helps to make the newsletter an interesting read.

With the very best wishes for a Happy Easter,
Ingvar Svenson (commodore).
